

PROTECTION FROM RECALLS

PRODUCT RECALLS

SINGLE OR MULTIPLE RECALLS

SEVERITY LEVELS

POST-SALE RECALLS

Any product recall can harm a company, its image and can have a big financial impact on it.

Validactor can manage recalls automatically on entire lots or single products.

It is possible to define different levels of severity and specify the action taken to face the emergency.

It is also possible to intervene on sold recalled products by notifying directly the final customers.
